

# OFFICES OF THE GOVERNORS

---

ARNOLD SCHWARZENEGGER  
CALIFORNIA

THEODORE R. KULONGOSKI  
OREGON

CHRISTINE O. GREGOIRE  
WASHINGTON

July 29, 2008

The Honorable Alan Mollohan  
Chairman  
Subcommittee on Commerce, Justice, Science, and Related Agencies  
Committee on Appropriations  
U.S. House of Representatives  
Washington, DC 20515

The Honorable Rodney P. Frelinghuysen  
Ranking Member  
Subcommittee on Commerce, Justice, Science, and Related Agencies  
Committee on Appropriations  
U.S. House of Representatives  
Washington, DC 20515

Dear Chairman Mollohan and Senator Frelinghuysen,

We, the governors of California, Oregon and Washington, are committed to working together to improve the oceanic health off the West Coast. Today, we are releasing our action plan for the *West Coast Governors' Agreement on Ocean Health*. As recommended by both the U.S. Commission on Ocean Policy and the Pew Oceans Commission, this action plan uses a collaborative approach to address some of our region's most pressing ocean and coastal management challenges. We respectfully request \$5 million in federal support to assist with plan implementation.

We entered into this historic partnership to address critical ocean and coastal protection and management issues nearly two years ago. The *West Coast Governors' Agreement on Ocean Health* affirms our commitment to work together on seven priority issues:

- Ensuring clean coastal waters and beaches;
- Protecting and restoring healthy ocean and coastal habitats;
- Promoting the effective implementation of ecosystem-based management of our ocean and coastal resources;
- Reducing adverse impacts of offshore development;
- Increasing ocean awareness and literacy among our residents;
- Expanding ocean and coastal scientific information, research, and monitoring; and
- Fostering sustainable economic development throughout our diverse coastal communities.

The Honorable Alan Mollohan  
The Honorable Rodney P. Frelinghuysen

The *West Coast Governors' Agreement on Ocean Health* is designed to help address the recommendations of the U.S. Commission on Ocean Policy and the Pew Oceans Commission, which called for implementation of regional ocean governance through joint state, local, tribal and federal efforts. Regional approaches can advance federal interests in ocean management through coordination with other levels of government by providing direct resources to address the unique needs of a region, as well as integrated, efficient and effective management of ocean resources.

Central to our agreement was a commitment to developing a specific action plan for the West Coast. Our plan advances key priorities of the U.S. Ocean Action Plan in areas such as water quality, ocean and coastal research and mapping, coastal pollution and habitat protection and restoration. We worked closely with the Subcommittee on Integrated Management of Ocean Resources (SIMOR) and key federal agencies to develop the plan and will continue to collaborate with federal agencies as we act on the tasks identified in the document. Indeed, moving from planning to implementation will require federal resources.

As mentioned earlier, we are therefore respectfully requesting federal support to help implement the action plan for the *West Coast Governors' Agreement on Ocean Health*. Specifically, we seek \$5 million for grants to our three states from the National Oceanic and Atmospheric Administration (NOAA) for activities identified by the action plan.

Our funding request is consistent with federal funding appropriated for other regional efforts. In 2005, President Bush's Ocean Action Plan indicated support for the Gulf of Mexico Alliance, and since that time the administration and Congress have provided more than \$8 million in federal funding to support the Alliance's activities. According to our colleagues in the Gulf of Mexico, federal funding has been critical to implementing the Gulf of Mexico Alliance Governors' Action Plan for Healthy and Resilient Coasts.

The Joint Ocean Commission Initiative, composed of members of the U.S. Commission on Ocean Policy and the Pew Ocean Commission, recently gave states and regional ocean governance initiatives an A- grade in its *2007 U.S. Ocean Policy Report Card*. The West Coast Governors' Agreement on Ocean Health is specifically called out in the report as a noteworthy example of reform in regional ocean governance.

Thank you for considering our request for \$5 million for implementation of the *West Coast Governors' Agreement on Ocean Health's* action plan. These actions will improve the economic and environmental health of the West Coast, and therefore of the nation.

Sincerely,

Arnold Schwarzenegger  
Governor of California

Theodore R. Kulongoski  
Governor of Oregon

Christine O. Gregoire  
Governor of Washington

The Honorable Alan Mollohan
