

# WEST COAST GOVERNORS ALLIANCE on OCEAN HEALTH

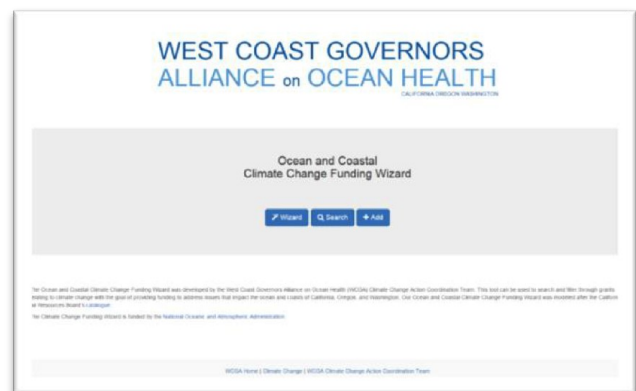

CALIFORNIA OREGON WASHINGTON

## [Ocean and Coastal Climate Change Funding Wizard Now Live!](#)

September 30, 2015

The West Coast Governors Alliance on Ocean Health (WCGA) Climate Change Action Coordination Team, with support and funding from the National Oceanic and Atmospheric Administration Regional Ocean Partnership Funding Program, has developed a searchable resource to identify funding opportunities pertaining to climate change including sea-level rise, coastal hazards, and other pertinent issues. The Ocean and Coastal Climate Change Funding Wizard is now live and available for a wide variety of stakeholders to utilize. It allows users to filter their searches by using specific categories, showing only new funding opportunities, and even saving searches that are updated each time the site is visited. Individuals and organizations are also encouraged to submit funding opportunities via our 'add' feature.

As a coordinated effort California, Oregon and Washington have focused on coastal impacts from climate change and taken steps to work together along the West Coast. Through the WCGA, this partnership has led to the development of the Funding Wizard and will be a useful source for those seeking funding. The Funding Wizard was modeled after the California Air Resources Board Funding Wizard for Sustainable Projects.

Please contact Kim McIntyre ([kim@westcoastoceans.org](mailto:kim@westcoastoceans.org)) with any questions or if you would like to add funding sources to the Funding Wizard.
